Porcelain Tiles

Azulejos de Porcelana / Piso de Porcelana

The porcelain tile is made of porcelain and other more noble materials. In addition, its firing temperature can reach 1,200 °C, which gives it greater resistance and lower porosity, that is, very low water absorption level.

They come in hundreds of colors, sizes and varieties, elevating the look of any room.

You can get a tile floor that looks like wood, is highly polished, or has the timeless look of stone.

El porcelanato está hecho de porcelana y otros materiales más nobles. Además, su temperatura de quema puede llegar a 1.200 °C, lo que le confiere mayor resistencia y menor porosidad, o sea, nivel de absorción de agua muy bajo. Que vienen en diversos colores, tamaño y de las variedades.

Usted puede conseguir un piso que se parece a la madera, pulido, o que se parezca a la piedra.

O porcelanato é feito de porcelana e outros materiais mais nobres. Além disso, sua temperatura de queima pode chegar a 1.200 °C, o que lhe confere maior resistência e menor porosidade, ou seja, nível de absorção de água muito baixo. Eles vêm em centenas de cores, tamanhos e variedades.

Você pode ter um piso de porcelanato semelhante a madeira, altamente polido, com a aparência de pedra.
